RELIABLE ACCESS TO THE WORLD'S LEADING HEALTH CARE PROFESSIONALS

AGB is committed to building strong and secure partnerships with health care professionals around the world — so that you have access to quality care when and where you may need it. That's why we have negotiated simplified prepayment procedures with thousands of medical facilities worldwide. Called "direct-settlement" arrangements, these agreements make accessing care easier and cover any eligible up-front costs associated with your care or treatment, such as planned in-patient treatment, a maternity stay or day-patient services. This is a significant benefit if you're faced with a more expensive medical procedure.

If you are unable to find a specific health care professional in our direct-settlement database, in the event that you require hospitalisation, we can coordinate a one-time direct-settlement agreement quickly and easily. In fact, we have a 95 percent success rate in negotiating these arrangements. You also have the freedom to pay up front for care received at any health care professional worldwide, and submit a claim to us for reimbursement.

Our international community of health care professionals*

*The North America region includes health care professionals who participate in the Aetna U.S. PPO Network.
