- More mobile applications coming soon
Wellness is a lifelong path, and the journey is different for each individual — whether they are healthy, at risk of disease or injury, managing a chronic condition or experiencing a major health event.

With this in mind, we’ve developed **Aetna Global Health Connections** — a complimentary wellness offering which includes the following programmes:

**Value-added wellness programmes**

**Cancer Outreach and Support**
Members with cancer can get assistance to help them understand their condition and locate helpful resources without a “one size fits all” approach. Instead, each interaction is customised to a member’s unique health situation. Members can even speak one-on-one with a registered nurse who is committed to helping them reach their best health.

**Health and Wellness Education**
Whether members are healthy individuals looking for additional healthy lifestyle tips — or have a chronic condition and want to learn how to reach their optimal state of health — we offer an array of health and wellness education materials to aid them in their efforts.

The Aetna International Wellness Centre provides helpful information, including health topics such as:

- asthma
- cancer
- coronary artery disease
- maternity
- stress management

Members have access to these tools and resources via the Aetna International secure member website at [www.aetnainternational.com](http://www.aetnainternational.com).
International Healthcare Plan overview

An innovative, flexible solutions offering

We offer a range of plans and optional benefits so you can maximise your healthcare budget and manage costs. Just select from one of four base plans, then choose from a selection of additional benefits.

Demands and needs statement

At Aetna, we strive to ensure that all our policies are of real benefit to our individual customers. Therefore, we ask each customer to carefully consider which Aetna policy best meets their own specific needs.

Aetna Global Benefits (Asia Pacific) Limited is an execution-only business. We do not provide advice regarding which plan best suits your individual requirements. Therefore, it is your responsibility to determine which policy type is most suitable for you.

We also recommend that policyholders should frequently review their health insurance requirements to ensure their current policy continues to meet those requirements.

Medical underwriting

Moratorium underwriting
Our standard approach to medical underwriting.
At the member level, cover is not provided for any medical condition in existence on the date that individual is accepted into the policy (date of entry) until it has been treated such that the individual is symptom and advice-free for two consecutive years following the date of entry with regard to that medical condition. This policy does not cover the treatment of pre-existing chronic conditions.

Full medical underwriting
Should we accept cover, we may apply additional terms and exclusions, which will be shown on your certificate of insurance.

Continuous transfer terms
For members wishing to transfer from other policies. This feature may incur additional premium.
The acceptance by us of the member’s original date of entry as shown by the member’s current insurer will be applied to the member’s policy with us. We will maintain the member’s existing underwriting or special acceptance terms, as offered by the member’s existing insurer, such as any moratoria or specific exclusions, and the member’s policy with us will be governed by the terms and conditions of our policy. Any transfer will be subject to no enhanced benefits being provided. We reserve the right at all times to decline a continuous transfer terms request without giving any reason or impose/include additional exclusions.

Plan currency
The Sterling (£) currency is available to policyholders registered in the United Kingdom.

A. No. In the rare instance that we require additional information for fair and accurate underwriting purposes, we will ask you to submit a medical report from your doctor.

A. Cover for all pre-existing medical conditions are excluded during the first two years of membership. Future costs will be covered providing you do not have any symptoms, treatment or advice for that condition during this two year period.

Q. Am I covered when travelling worldwide?
A. All members are covered for elective medical treatment in your area of cover, the standard area of cover is Worldwide excluding the U.S. members who wish to benefit from U.S. Elective Treatment should select an appropriate plan and this benefit option.

Additionally, for members with Worldwide excluding U.S. cover who are temporarily travelling in the U.S., we will pay for treatment arising as a result of an accident or emergency for new medical conditions for which you have not previously experienced symptoms, sought advice or received treatment.

Q. How is the policy excess applied?
A. You are responsible for the policy excess. It is applied to each new medical condition and is deducted by the Aetna claims department upon settlement of the claim.

A. You should dial the Aetna International Member Service Centre to determine whether treatment is covered under your policy prior to a planned admission into the hospital.

Q. Can the level of cover be adjusted during the policy term?
A. No. The level of cover can only be changed at the renewal date. At that time, we will work with you to ensure any benefit level changes are appropriately adjusted.

Q. Am I able to obtain forms and information online?
A. Yes, you have access to claim forms as well as global health and security information at www.aetnainternational.com.

Q. How can members submit a claim?
A. Upon inception, each member will receive a membership card. This provides them with the contact information for the Aetna International Member Service Centre and information they need to register for the Aetna International secure member website. We reserve the right to deny any claim that is not submitted within 180 days of the treatment date. Claims may only be made for treatment given during a period of cover. The benefit will only be payable for expenditure incurred prior to expiry or termination.
